# WHY CHOOSE BLACK ANGUS

Sourced from 100% Irish family farms

Fully traceable back to farm

Sustainably Produced

Animal Health and Welfare Friendly

Naturally higher in marbling

Famed for its undisputed pedigree and unique taste, Black Angus boasts succulent, tender beef of unmatched character and distinction.

## TRULY IRISH

When it comes to beef, Ireland has a unique advantage, its temperate climate, abundant rainfall and tradition of family farming have resulted in a grass-fed system with Irish beef cattle grazing outdoors on grass for the majority of the year.

## QUALITY

This premium Angus breed produces tender and flavoursome beef which is fully traceable back to the farm. It is also Bord Bia Quality Assured, meaning it meets the highest quality standards at every stage of the process.

## NATURAL MARBLING

Angus beef is renowned for its natural marbling. The meat naturally features flecks of fat which provide enhanced flavour and succulence. This also allows the beef to stay juicy during cooking.

## FLAVOUR

As natural foragers, Irish Angus thrive on lush open pastures where they are free to graze natural grasses, wild herbs and clovers. This in turn imparts a superior flavour profile and tenderness to their beef. Their grass based diet can produce a fuller, meatier flavoured beef with evenly distributed fat and marbling.

## SUSTAINABLE

The Angus breed naturally matures early which results in fewer carbon emissions produced from each animal when compared with other breeds. Our Black Angus beef is processed in our facilities which are Origin Green certified – meaning that our beef is produced at every stage in the process, in a more sustainable way.

## OUR DEDICATED FROZEN BURGER FACILITY

KILMATHOMAS, Carroll's Cross, Co. Waterford

## FOR OVER 35 YEARS

Dawn Meats have been developing and supplying exceptional patties for a range of leading foodservice, restaurant and supermarket businesses.

The Bord Bia Quality Assured mark ensures our customers that our burgers have been produced to the highest standards, verified at every stage from farm to pack, so you know exactly where our burgers come from. It assures you that our burgers have passed strict standards around food safety, animal health and welfare, and care for the environment.

### ACCREDITATIONS
